

NORMAN LEAF, M.D., F.A.C.S.  
PLASTIC AND RECONSTRUCTIVE SURGERY

## FINANCIAL INFORMATION

Plastic surgery is a financial investment. We believe in fully informing our patients of their financial responsibility prior to scheduling any procedures. You will be given a detailed financial quote for any procedures you may be interested in at the time of your consultation visit which is guaranteed for 6 months. Quotes include all pre-operative care, the surgical procedure, and all post-operative office visits related to the procedure. Your quote may be inclusive of all fees or broken down, but fees to consider for any surgery include the surgical fee, operating room/facility fee and anesthesia fee, aftercare facility or private duty nursing as well as any implant fee that may apply.

### Fees and Scheduling

Our consultation fee is \$250.00. The consultation fee will be collected the day of your appointment. There is a 48 hour cancellation policy. The consultation fee will be credited towards any selected procedure; cancellation fees are not applicable toward procedure fees.

Scheduling a surgical case will require a nonrefundable deposit 20% of the service fee. This will be credited towards your surgery. Payment for surgery is due at the pre-operative examination or 2-3 weeks prior to the operation, whichever comes first.

### Payment Process

Surgical fees are typically collected at the time of your Pre-Op appointment scheduled 2-3 weeks prior to your surgery. Our priority is making whatever arrangements we can to provide you maximum flexibility to ensure the last thing you must worry about is payment on the day of your surgery. We can accept several smaller deposits over a period of time up until your Pre-Op appointment, so long as payment for all fees is made in full 2 weeks prior to surgery. Additional operating room fees and anesthesia fees may apply after your surgery is complete. We quote these fees upfront based on the estimated duration for the procedure. We do our best to adhere to the estimated time, however, occasionally the surgeon might determine that additional refinements need to be performed in the best interests of the patient, or unexpected complications need to be treated. In this rare case the procedure may run overtime and additional fees for facility and anesthesia may apply and will be billed separately. The surgical fee will not be affected by additional time.

We accept Cash, Check, Visa, MasterCard and American Express. Gift Certificates are also available for purchase.

### Insurance Billing

Most cosmetic procedures are elective and not covered by insurance companies. Some procedures, however, may be covered. Please inform us of your insurance plan when you contact us to schedule an appointment. If insurance is an option, it will be billed for consultation and all appointments thereafter considered medically necessary. You will be responsible for all fees determined to be a patient's responsibility by the provided insurance plan.

### Financing Options

We offer a convenient payment alternative as another way to make cosmetic surgery accessible to those who otherwise would not have the option. We are contracted with **CareCredit® Patient Payment Plans** for financing purposes. You can apply in our office, online or over the phone (800-365-8295). Please advise us **in advance** of your interest in this financing option as finance fees may apply.
